

# AI Reputation Analysis and Signal Evaluation - Ghibli Museum, Mitaka (???????????)

## BRAND AI REPUTATION

Arts, Culture & Entertainment Reputation:  
Ghibli Museum, Mitaka (???????????)  
(ghibli-museum.jp)

https://ghibli-museum.jp

Industry: Arts, Culture & Entertainment

REPUTATION LEVEL

## ARTS, CULTURE & ENTERTAINMENT

**67.5 Avg Reputation**

Based on 1884 businesses audited.

### HIGHER REPUTATION THAN AVERAGE

Ghibli Museum, Mitaka (???????????) has 26.5 points more reputation than the average for Arts, Culture & Entertainment.

## EXPERT VERDICT

This website is a rare specimen of total BS-extinction. It operates as a high-utility information terminal that treats the user with respect by providing data instead of adjectives. It is the gold standard for how a cultural institution should present itself online.

[See how to improve >](#)

## INFO DENSITY

Power-words vs. Substance ratio.

**28**

93% Reputation

The information density is exceptionally high with almost zero power-word saturation. Headings like [H2] ?????????? (Screening Schedule) and [H2] ?????????? (Access Map) lead directly to specific nouns and numbers. Body text includes precise data points such as film durations (9 min, 16 min), bus fares (230 yen), and exact maintenance dates (May 12-19, 2026). The site avoids generic marketing fluff in favor of logistical utility.

## SEMANTIC COHERENCE

Homepage promise vs. Sub-page reality.

20

100% Reputation

There is no detectable semantic drift between the homepage and sub-pages. The primary signal of being a museum requiring timed reservations is consistently reinforced across every page (e.g., [H3] ??????????????????). Sub-pages for the cinema and access deliver exactly what the navigation labels promise, maintaining total alignment between navigation intent and content delivery.

## TRUST & PROOF

Verifiable evidence vs. Trust Theatre.

20

100% Reputation

### DIAGNOSIS: TRUST THEATRE

The site does not utilize trust theatre. The review\_count is 0 across all pages, and there are no trust\_theatre\_flag indicators. Instead of relying on verified badges, the site provides functional proof through integrated Lawson ticketing links, Google Maps coordinates, and real-time operational updates like the snow-related opening announcement on Feb 8, 2026.

### EVIDENCE: PROOF DENSITY

Proof density is maximal. Every film mentioned (Takarasagashi, Hoshi wo Katta Hi) includes specific screening periods, durations, and plot summaries. Every transport claim includes exact walking times (15 minutes from Mitaka Station) and bus route stops. The ratio of vague assertions to verifiable evidence is effectively zero.

## COMMODITY FINGERPRINT

Detection of industry cliches/templates.

13

87% Reputation

The site is almost entirely free of the provided industry jargon dictionary. Phrases like 'immersive experience' or 'cultural vibrancy' are absent, replaced by literal descriptions of the physical space (e.g., 'small movie theater with 80 seats'). A minor penalty is applied for template fingerprints in the sidebar (????, ??????????), but the content within those blocks remains highly specific to the institution.

## IDENTITY & AUTHORITY

Expert verifiability & Schema depth.

13

87% Reputation

### DIAGNOSIS: AUTHORITY GAPS

Authority is established through specific named contributors such as author Yamawaki Yuriko and translator Noguchi Emi. While the provided schema\_json is null, the meta-data and content link to established cultural festivals like 'Mitaka no Mori Anime Festa 2026'. The authority is intrinsic rather than performative, though the technical implementation lacks structured Person schema for the artists mentioned.

### EVIDENCE: PERFORMANCE VS. CLAIMS

The site makes no bold performance claims to disconnect from. Its primary 'claim' is being a place where one can 'get lost together,' which is framed as a creative philosophy rather than a marketing metric. Every operational claim, such as the bus fare revision on Sep 1, 2024, is backed by factual logistical data.

## INDUSTRY MATCH & SCORE SUMMARY

---

**Arts, Culture & Entertainment Reputation: Ghibli Museum, Mitaka**  
**(???????????) (ghibli-museum.jp)**

**Reputation: 94 / 100**

### INDUSTRY CLASSIFICATION

The site aligns perfectly with the Arts, Culture & Entertainment industry. It provides granular cultural programming, including specific film screenings at the Doseiza cinema and current exhibition schedules.

*"The score of 94 is driven by minor technical omissions in structured data and standard template repetition in the footer. The site is virtually free of semantic drift, marketing jargon, or unsubstantiated claims, making it one of the most 'honest' digital presences in the culture sector."*

### ANALYSIS DISCLOSURE & SOURCE ATTRIBUTION

This analysis is part of a non-adversarial audit conducted by 1 Euro SEO. The results are intended as professional feedback to help improve any website's machine-readability and authority signals. The evaluation is free, and any company can request a fresh audit at any time.

Any company can use the insights for free and improve its voice. When a company has updated its content, it can always submit a new audit request, which will be reflected in a new current score.
