

# AI Reputation Analysis and Signal Evaluation - Ville de POISSY

## BRAND AI REPUTATION

### Government, Municipal & Public Sector Reputation: Ville de POISSY (poissy.fr)

https://poissy.fr

Industry: Government, Municipal & Public Sector

REPUTATION LEVEL

## GOVERNMENT, MUNICIPAL & PUBLIC SECTOR

### 68.9 Avg Reputation

Based on 303 businesses audited.

#### LOWER REPUTATION THAN AVERAGE

Ville de POISSY has 38.9 points less reputation than the average for Government, Municipal & Public Sector.

## EXPERT VERDICT

The site is currently a 'Digital Ghost' ? a municipality that exists in name only while its digital presence is a void of boilerplate placeholders. It scores high on BS not because of malicious intent, but because of the total gap between the authority it represents and the zero substance it provides.

[See how to improve >](#)

## INFO DENSITY

Power-words vs. Substance ratio.

5

17% Reputation

The site exhibits zero information density with 100% of the body text dedicated to a generic maintenance message. There are no specific nouns, metrics, or municipal services mentioned beyond the H1 entity name. The headings are non-existent outside of the brand identifier, and the body text is a single placeholder sentence regarding site inaccessibility. This results in a total absence of substance or specific claims.

## SEMANTIC COHERENCE

Homepage promise vs. Sub-page reality.

7

35% Reputation

There is a severe disconnect between the primary signal in the meta\_title, which claims to be the 'Accueil' (Home) for the city, and the actual content which is an error/maintenance notice. The site promises a municipal portal but delivers a service blackout. This represents a total drift from the intended function of a government website to a non-functional digital placeholder.

## TRUST & PROOF

Verifiable evidence vs. Trust Theatre.

13

65% Reputation

### DIAGNOSIS: TRUST THEATRE

The review\_count and proof\_links\_count are both 0, indicating a complete lack of verified third-party trust. While the site does not use 'trust theatre' flags like fake badges, it makes a vague performance claim about 'improving service quality' without providing any proof, timeline, or scope for these improvements. No external validation or municipal records are accessible.

### EVIDENCE: PROOF DENSITY

The proof density is 0% as there are zero specific facts, figures, or dated records provided in the clean\_text. Every word in the 166-character crawl is either a brand name or a generic apology. The site fails to meet any of the industry-specific proof expectations such as meeting minutes or financial data.

## COMMODITY FINGERPRINT

Detection of industry cliches/templates.

0

0% Reputation

The content is a textbook example of template boilerplate from the '123Mairie' platform provider. The phrase 'Pour améliorer la qualité de service' is a generic placeholder that could be applied to any municipal site under maintenance and lacks any Poissy-specific identifiers. The template fingerprints are entirely generic and provide no unique value proposition for the citizens of Poissy.

## IDENTITY & AUTHORITY

Expert verifiability & Schema depth.

5

33% Reputation

### DIAGNOSIS: AUTHORITY GAPS

The absence of schema\_json indicates a failure to establish technical authority or entity relationships through structured data. No elected officials, department heads, or municipal experts are named, leaving the 'authority' of the page entirely anonymous and unverified. There is no digital footprint for government experts within the provided evidence.

### EVIDENCE: PERFORMANCE VS. CLAIMS

The only performance claim is the assertion that the site is being updated to 'improve the quality of service,' which is a standard marketing euphemism for a technical outage. This claim is totally unsubstantiated by any technical roadmap, service levels, or specific outcomes. It demonstrates a high marketing tone-to-substance ratio even in its brief format.

## INDUSTRY MATCH & SCORE SUMMARY

---

**Government, Municipal & Public Sector Reputation: Ville de POISSY  
(poissy.fr)**

**Reputation: 30 / 100**

### INDUSTRY CLASSIFICATION

The entity is clearly identified as a French municipality (Ville), which fits perfectly within the Government and Public Sector category. However, the current digital content provides zero municipal functionality, suggesting a total failure of its digital service delivery signal.

*"The score of 30 is driven primarily by Information Density (25) and Commodity Fingerprint (15) due to the total reliance on non-specific boilerplate. Semantic Coherence (13) is high because the 'Home' signal leads to a dead-end service page. Identity gaps (10) contribute due to the lack of structured data and expert digital footprints."*

### ANALYSIS DISCLOSURE & SOURCE ATTRIBUTION

This analysis is part of a non-adversarial audit conducted by 1 Euro SEO. The results are intended as professional feedback to help improve any website's machine-readability and authority signals. The evaluation is free, and any company can request a fresh audit at any time.

Any company can use the insights for free and improve its voice. When a company has updated its content, it can always submit a new audit request, which will be reflected in a new current score.
