EXPERT VERDICT

3 Figure Media LLC is a classic ghost agency? a digital facade built on a poorly scrubbed template that still contains the name of its likely source material, Sauderson. With placeholder testimonials and zero-value counters, the site functions as a high-drift marketing shell with no operational substance.

INFO DENSITY

Power-words vs. Substance ratio.

6

20% Reputation

The site is saturated with high-intensity power words such as global, unrivalled, and high-impact without any supporting data. The body substance ratio is critically low; the testimonials section contains literal Lorem Ipsum placeholder text for three separate John Doe CEO entries. Specificity is entirely absent, with the About Us page listing 0 for years in industry, countries, and brands trusted.

SEMANTIC COHERENCE

Homepage promise vs. Sub-page reality.

1

5% Reputation

There is a catastrophic messaging disconnect where the homepage claims to be a global influencer marketing agency while the About Us counters with 0 across all performance metrics. Most notably, the FAQ section on the Contact Us page repeatedly references a different company named Sauderson, proving the content was copy-pasted from a competitor or template. The Services page is a broken Archive header with no actual content, contradicting the homepage's elaborate service descriptions.

TRUST & PROOF

Verifiable evidence vs. Trust Theatre.

0

0% Reputation

DIAGNOSIS: TRUST THEATRE

The site exhibits extreme trust theatre by displaying a review_count of 33 on the homepage with a proof_links_count of 0. The testimonials are faked using standard Latin filler text and generic names, providing zero actual social proof. Claims of being a leading agency and delivering results globally are entirely unsubstantiated by any named clients or external links.

EVIDENCE: PROOF DENSITY

The proof density is zero. Across four crawled pages, there are zero named clients, zero verified results, zero external proof links, and zero years of verifiable industry experience. Every claim of success is buried under placeholder text or contradicted by the site's own 0 plus statistics counters.

COMMODITY FINGERPRINT

Detection of industry cliches/templates.

1

7% Reputation

The value proposition is a collection of industry cliches like results-driven, move the needle, and where creativity meets data that could be applied to any agency. The template fingerprint is heavy, with standard Why we do it and What we do blocks that contain no unique methodology. The failure to even replace the Sauderson brand name in the FAQ confirms the site is a low-effort commodity template.

IDENTITY & AUTHORITY

Expert verifiability & Schema depth.

0

0% Reputation

DIAGNOSIS: AUTHORITY GAPS

There is no verifiable human authority; the only named individual is a placeholder John Doe. The site lacks all technical markers of authority, including a total absence of JSON-LD schema and broken internal page hierarchies like the Archive: Services H1. The company's registered address is a known commercial registered agent address in Wyoming, often associated with shell entities.

EVIDENCE: PERFORMANCE VS. CLAIMS

The agency claims to drive unrivalled results and craft excellence while the actual website content is unfinished and broken. The gap between the marketing tone (leading influencer marketing agency) and the evidence (0 brands, 0 countries) is a 100 percent disconnect. Bold assertions regarding ROI and data-driven growth are nullified by the inability to provide a single real-world case study or metric.

INDUSTRY MATCH & SCORE SUMMARY

**Marketing, SEO & Advertising Agencies Reputation: 3 Figure Media LLC
(3figuremedia.com)**

Reputation: 8 / 100

INDUSTRY CLASSIFICATION

The site aligns with the Marketing & Influencer Agency category, utilizing standard sector terminology like paid social whitelisting and content production. However, the presence of placeholder text and conflicting brand names suggests the site is a templated shell rather than an active service provider.

"The score of 8 is driven by the presence of placeholder text (Lorem Ipsum), the failure to change the brand name from a previous template (Saulderson), and the self-reported stats of 0 for all experience metrics. These factors represent a near-total absence of substance against a backdrop of extreme marketing claims."
