EXPERT VERDICT

Qadra Studio is a legitimate service provider that provides unusually honest pricing data, yet hides behind a 'Global Agency' mask that its current website technicals cannot support. It is a competent regional studio currently wearing oversized marketing shoes.

INFO DENSITY

Power-words vs. Substance ratio.

19

63% Reputation

The site exhibits a dual nature regarding information density. While the homepage relies on high fluff headings like 'Out of the box ideas' and 'Creative Excellence Worldwide,' the service pages for branding and graphic design provide rare and refreshing specificity by listing actual pricing ranges (PHP 80,000 to PHP 3,000,000). However, the body text frequently lapses into generic concept repetition, stating design can 'move mountains' or 'shake the world' without explaining the specific mechanism of action behind these claims.

SEMANTIC COHERENCE

Homepage promise vs. Sub-page reality.

16

80% Reputation

There is a notable disconnect between the 'Global Graphic Design Agency' signal and the site's maintenance state. The homepage promises 'Phenomenal services spanning multiple continents' and 'Measurable results,' yet the 'Coming Soon' sub-page is an empty placeholder, and the contact page is flagged as insufficient with only 275 characters of content. This creates a drift where the 'Global Agency' signal is undermined by a neglected technical footprint that suggests a smaller, less-resourced operation.

TRUST & PROOF

Verifiable evidence vs. Trust Theatre.

20

100% Reputation

DIAGNOSIS: TRUST THEATRE

Trust theatre is present primarily through the display of reviews without external verification. The homepage claims a review_count of 15, while sub-pages like About and Contact fluctuate to 12, and the trust_theatre_flag is true for the contact-us page due to the absence of verifiable proof paths. While specific client names like Luba Beer and Third Pillar are cited, there are no outbound links to live work or third-party review platforms like Clutch or Google Business to validate the testimonials.

EVIDENCE: PROOF DENSITY

The ratio of evidence to assertions is low. Across 6 pages, the site mentions dozens of clients but only provides one proof link. The portfolio summaries are brief narrative descriptions rather than data-backed case studies. For an agency claiming 'Excellence Worldwide,' the lack of deep-dive performance data creates a significant credibility gap between its marketing tone and forensic evidence.

COMMODITY FINGERPRINT

Detection of industry cliches/templates.

7

47% Reputation

The site uses a highly standard '7-Phase' process for branding (Discovery, Research, Strategy, etc.) that mirrors the industry_jargon and template_fingerprints common to most design agencies. Phrases like 'unlock the power of your brand' and 'rise above your competition' are copy-paste cliches that could belong to any competitor. The explicit disclosure of pricing is the only factor preventing a higher score in this pillar.

IDENTITY & AUTHORITY

Expert verifiability & Schema depth.

7

47% Reputation

DIAGNOSIS: AUTHORITY GAPS

The site attempts to build authority by naming team members like Louigi, Anna, and Symer, but fails to provide full names or digital footprints (LinkedIn links) to verify their expertise. The schema_json includes basic Place and Organization data, but the authority is weakened by the 'Coming Soon' pages which indicate that the agency's own digital presence is incomplete, contradicting its claim of being a 'strong, passionate web design company.'

EVIDENCE: PERFORMANCE VS. CLAIMS

The homepage claims 'Measurable results' as a top-level value proposition, but none of the featured projects (Atlantic Wave, Evolve Capital, etc.) include any actual measurements. There are no mentions of conversion rate increases, traffic growth, or revenue impact, leaving the word 'measurable' as a purely rhetorical flourish rather than a demonstrated reality.

INDUSTRY MATCH & SCORE SUMMARY

Marketing, SEO & Advertising Agencies Reputation: Qadra Studio (qadra.studio)

Reputation: 57 / 100

INDUSTRY CLASSIFICATION

The site aligns perfectly with the Marketing, SEO & Advertising Agencies category, specifically focusing on the web and graphic design sub-sectors. The presence of specific service pillars like branding, web development, and social media production confirms the industry classification.

"The score of 57 is driven by the 'Trust Theatre' and 'Authority Gaps' pillars, specifically the inconsistency in review counts and the presence of broken/empty pages on a professional design studio's site. It is rescued from a 'High BS' rating by the transparency of its pricing models on service pages, which is a significant substance signal."
